

INCIDENT MANAGEMENT SITUATION REPORT
 FRIDAY, JULY 14, 1995 - 0530 MDT
 NATIONAL PREPAREDNESS LEVEL II

*** THE TEN STANDARD FIRE FIGHTING ORDERS ARE FIRM.***
 *** WE DON'T BREAK THEM: WE DON'T BEND THEM.***

Current Situation: The western U.S. experienced minimal initial attack activity. Large fire activity continues to decline across the west. Resource mobilization through NICC remained low. Large fire activity continued in Canada with 300,263 additional acres burned.

Southwest Area Large Fires:

BURDETTE, San Carlos Agency, BIA. A Type II Incident Management Team (Moore) is assigned. No information received.

BASIN/HORSESHOE COMPLEX, Tonto NF. A Type II Incident Management Team (Whitney) is committed. The fire received rain yesterday. Demobilization of local resources will occur today.

BASIN/HORSES	TNF	AZ	22,092	80	7/15	514	12	4	5			810K

Eastern Great Basin Large Fires:

TERRA, Salt Lake City District, BLM. A Type II Incident Management Team (Martin) is assigned. Fire behavior has moderated significantly, but concern remains that additional high winds could cause loss of control. Sensitivity to sovereign lands on the Skull Valley Reservation requires gaining permission and acceptance for suppression activities.

TERRA	SLD	UT	6,300	85	7/14	334	10	13	3		UNK	360K

Rocky Mountain Area Large Fires:

GOODMAN POINT, San Juan NF. Heavy loading of cured cheatgrass, erratic winds from thunderstorms and dust devils are contributing to control problems. Crowning and spotting in Pinyon/Juniper stands is of major concern. Current threats are to homes and ranches ahead of the fire.

Outlook: Upper level high pressure will begin building over the west. A surface cold front will extend from Minnesota to Colorado producing showers and thundershowers along the front. Weak upper level low pressure will also bring showers and thundershowers to Arizona. There will be dry and generally warm weather with isolated thunderstorms elsewhere in the West. Most of the interior West will have highs in the 80's. Wyoming and Montana will have highs in the 60's and 70's. Temperatures will be up 110 degrees in the deserts of the Southwest. Initial attack fire activity is expected to continue.
